

Pacific Urethanes is Celebrating 10 Years in the Polyurethanes Industry

On the 24th of July at Woodlands Golf Club in Melbourne **Pacific Urethanes** celebrated 10 successful years in the Polyurethane Industry in Australia, New Zealand and ASEAN countries.

Following the acquisition of the AUS business earlier in the year **Pacific Urethanes** is now one of the leading companies in the development and production of polyurethane systems for these markets.

Owen Stam the Managing Director of **Pacific Urethanes** welcomed our guests and introduced the Chairman Peter Brooksbank who spoke of the journey leading to this important milestone.

Samantha Read the CEO of Chemistry Australia then addressed the guests including customers, suppliers and service providers on the challenges facing the chemical industry in Australia. Energy supply and pricing was highlighted as one of the most significant issues impacting our industry at the present time.

Donovan Slade the CEO of NUI South Africa then spoke of his enthusiasm for the new partnership with **Pacific Urethanes**. NUI is a global leader in the manufacture and supply of polyurethane coatings, adhesives, sealants and elastomers.

Pacific Urethanes capability proposition is focussed on three pillars.

- Advanced Technology
- Customised Development
- Application Experience

We are looking forward to the future with confidence. This is an exciting industry with very bright prospects.

At **Pacific Urethanes** our team is ready for the challenges and opportunities ahead.
